Initially established in 2005, Dawn Yearn is a high-end cosmetics packaging company integrating R&D, manufacturing and sales. As our slogan ‘Think the way you think’ says, we put a lot effort on escorting and supporting our clients to achieve a success by offering the most high-quality and customized packaging.

Our production is certified in compliance with the international quality system ISO 9001 and ISO 14001. And we have strict quality inspection based on international standard AQL. We value the power of specialization. That’s why, instead of broadening the product line, we keep diving into producing 15-50 ml pressure pump glass bottle, dropper glass bottle, and offering a whole set of service coordinating producing, printing, frosting, metalizing, spraying and so on. We also observe the most current trend and study the consumers in order to design and develop the most cutting-edge packaging for our clients, as we always say - ‘you master the ingredients, we master the container’. As our business expands rapidly, we’ve explored the international market in recent years and are glad to find our products popular in areas including Middle East, North America, Africa and Eastern Europe. And we are more than exciting to embrace new partners!
